SUMMER 2012 EDITION

## New Retail Location

We are excited about the company's brand-new retail location, set to open soon. It will serve as a one-stop shopping destination for everyone from a do-it-yourself person to the seasoned professional.

The opening of the store was inspired by feedback from the company's clients, who were looking for a way to purchase Eco-Roof's high-quality products for smaller, at home jobs.

The store will go beyond carrying a vast array of roofing supplies to include, for sale or rent, all of the related accessories customers will need to complete the job, a sort of "roofing superstore".
